DoD’s Flexible and Responsive Civilian Personnel System

- Performance management system that:
  - Values performance and contribution
  - Encourages communication
  - Supports broader skill development
  - Promotes excellence

- Streamlined, more responsive hiring process
- Flexibility in assigning work
- Preservation of employee benefits, rights, and protections
- Preservation of rights to join a union
- Tools for a more effective and efficient workforce

What is NSPS?
Alignment Matters

What are our goals?
- Align work with mission and/or organizational goals
- Communicate and understand how employee contributions tie to mission and organizational goals
- Acknowledge and reward performance
- Distinguish levels of performance so that those who are contributing are rewarded appropriately

What is our intent?
- Relationships are clear and transparent
- Responsibility is clear and accepted
- Results are demonstrated and measurable

What we know after 25 years experience in DoD...
- Communication and training are critical
- Evaluation assures accountability
- Transformational change must happen at every level
- Takes hard work and is time consuming
What Does Not Change?

- Merit System Principles
- Veterans’ Preference Principles
- Whistleblower protections
- Rules against prohibited personnel practices
- Anti-discrimination laws
- Fundamental due process
- Benefit laws on retirement, health, life, etc.
- Allowances and travel/subsistence expenses
- Training
What’s In It For Employees?

- Recognizes and rewards employees based on personal contributions to mission
- Opens communication between supervisors and employees: all know expectations
- Encourages employees to take ownership of their performance and success
- Promotes broader skill development and advancement opportunities in pay bands
What’s In It For Supervisors?

- A modern, flexible, and agile human resources system
  - Reward good performance
  - Mitigate against poor performance

- Aligned with DoD mission
  - Attract highly qualified job candidates
  - Right person in the right position at the right time with the right pay

- More accountability, more responsibility
2½ years of joint design and development

Spiral 1.1 implemented on 30 April 2006
  • Human Resources provisions
  • Approximately 11,000 CONUS GS employees in 12 organizations
  • Successful IT conversion and payroll interface

Performance Management
  • Workforce trained in HR Elements and Performance Management
  • Performance plans linked to organizational goals and objectives
  • Rating cycle through October 2006
  • Performance payout in January 2007

Lessons Learned Workshop, June 21-22, 2006

Spiral 1.2 – over 66,000 employees converting October 2006 – January 2007
  • Human Resources provisions
  • CONUS and OCONUS – two pay schedules (GS and APS)
  • Rating Cycle through September 2007
  • Performance payout in January 2008

Conducted Spiral 1.1 mock pay pools

Lessons Learned Session, October 24, 2006
Major Design Elements

- **Classification**
  - Jobs in broad “pay bands” based on work nature and competencies

- **Compensation**
  - Pay directly linked to performance and mission accomplishment

- **Performance Management**
  - Linked to agency mission
  - Job objectives and contributing factors influence rating
  - Meaningful distinctions in employee performance
  - Employee development with ongoing feedback and dialogue

- **Staffing**
  - Flexibility to respond to mission changes
  - The right person, in right place, at the right time

- **Workforce Shaping**
  - Emphasis on performance
- Direct link between mission accomplishment, performance, and pay
  - **Job objectives** – the "What" – primary focus
  - **Manner of performance** – the "How" – contributing factors that influence the objective rating
- Meaningful distinctions in performance
Automated tool that will aid in:

- Creating performance plans
- Capturing the recommended rating levels
- Capturing the overall rating of each employee
- Open, ongoing communication

Part of the Defense Civilian Personnel Data System (DCPDS)

- Accessible to employees and supervisors
- Accessed via *My Workplace* (supervisor/manager) or *My Biz* (employee)
Why Pay Pools Are Important

- Reconcile ratings and payout decisions
- Ensure managers/supervisors apply standards equitably when rating employees and providing rewards/incentives
- Ensure multi-level accountability and responsibility
  - Rating Official, Pay Pool Panel, Pay Pool Manager, Performance Review Authority (PRA)
- Validate decisions made at the individual level within the context of organization and mission
Mock Payouts – Key Findings

- Supervisor and employee perspectives aligned regarding performance measures
- Clear and consistent understanding of Level 3 rating is essential to defining performance that exceeds expectations
- Mock payouts should be conducted earlier so organizations can make necessary adjustments
  - Establish or modify business rules
  - Provide additional training
  - Pay pool process can be lengthy – allow appropriate time
  - Need more guidance on salary increase vs bonus
Feedback Adjustments

Conversion
- Spiral 1.2 conversion window (Oct 2006 – January 2007) vs single implementation date

Training Modifications
- Emphasis on writing smart job objectives and self-assessments

Need for Compensation Guidance
What’s Next?

- **Design and implement NSPS for other populations**

- **Continue spiral approach**

- **Evaluate program**
  - Short term: system adjustments, course corrections, best practices to share
  - Mid term: system determination
  - Long term: continuous improvement
Summary

- A modern, flexible, and agile human resources system
  - Responsive to the national security environment
  - Preserves employee protections and benefits

- Stimulates an environment where employees are encouraged to excel, challenged with meaningful work, and recognized for contributions
  - Transitions to a culture where feedback and coaching is essential
  - Encourages employees to take ownership of their performance and successes

“NSPS is a win-win-win system... a win for our employees, a win for our military and a win for our Nation.”

Honorable Gordon R. England
NSPS Senior Executive

Conversion of GS/GM-14 Supervisors

- GS/GM-14 supervisory positions convert to pay band based on highest level of work performed

- Supervisory responsibilities
  - Pay Band 2 supervisory positions (YC/YF)
    - More limited scope of supervisory responsibilities (e.g., functions as immediate or intermediate supervisors)
    - Usually supervise Pay Band 2 employees (GS -9/11/12/13 equivalent)
  - Pay band 3 supervisory positions (YC/YF)
    - Broad scope of managerial responsibilities
    - Usually manage Pay Band 3 employees (GS -14/15 equivalent)

- Non-supervisory (technical) work
  - Pay band 3 non-supervisory positions (YA/YD)
    - Covers GS/GM-14 level of work personally performed
    - Subject-matter expert, program manager

Component determines pay band assignment
Pay Cap on Reassignment

- Pay increases on reassignment actions are capped at a maximum of 5% per job change
  - Under GS rules, movements from 12 to 13 were promotions
  - Under NSPS, these actions are reassignments
    ✓ Pay increase less than received under GS (6 to 19%)

- Senior leadership decision on August 23, 2006
  - Maintain reassignment maximum at 5%
  - Monitor under NSPS evaluation plan
  - Ensure other provisions for pay increases are understood
    ✓ Performance payouts—salary increase and/or bonus
    ✓ One-time, in-band promotion equivalent (deals with GS-12/13 issue, in particular)
    ✓ Accelerated Compensation for Developmental Positions (ACDP)
**Conversion Adjustment**
- Employee’s basic pay will be set at their current base rate plus a pay adjustment equal to the amount earned to date toward their next WGI

**January 2007 Pay Adjustment**
- Grant equivalent of GS across-the-board pay increase and locality pay increase for those employees with a current rating of record of Level 2 or above

**Pay Pool Funding Floor**
- Department-wide funding floor set at DoD historical average (2.26%) for continuing pay
- Components have discretion to set bonus portion of the pay pool

**Protection of Pay Pool Funding**
- Components certify that pay pool funds were used only for compensation of civilian employees

NSPS
Staffing 
- Right person - right place - right time 
  - Develop capabilities to meet tomorrow’s threats
- Appointing authority for DoD
- Easily hire for critical needs
- Pay flexibility 
  - Obtain and keep talent for mission needs
  - Be competitive

Work Force Shaping
- Streamlined, mission responsive
- Performance based
- Less disruptive to employees and mission

Honor Veterans’ Preference
Compensation Philosophy

■ Performance based - market sensitive
  • Allows adjustments to market - be competitive
  • Salary increases tie to performance - not time on job
  • Largely sunset special rate supplements

■ Move to market sensitive pay over time
  • Adjust career group, pay schedule, occupation, and/or pay band local market supplement pay differently than rest of government by exception for now
  • Establish analysis capacity this FY

Feb 27, 2006, District Court concluded that:

- DoD and OPM satisfied their statutory obligation to collaborate in developing the system
- DoD lawfully had the authority to depart from Chapter 71 in establishing a new labor relations system
- New rule fails to ensure that employees can bargain collectively
- National Security Labor Relations Board does not meet Congress' requirement for "independent third party review" of labor relations decisions
- Process for appealing adverse actions fails to provide employees with "fair treatment" as required by Congress

District Court permanently enjoined adverse actions, appeals, and labor relations

Department of Justice filed Notice of Appeal on April 17, 2006
